

Online Risk Assessments

ASSESSMENT DURATION:

10 minutes

TARGET AUDIENCE:

- Every worker potentially exposed to the relevant risks

AVAILABLE IN:

- Non-Audio

DELIVERED VIA:

- Intranet
- Internet
- CD Rom

HSRA1: DSE and Workstation Risk Assessment

- Workstation chair
- Display screen
- Keyboard and mouse
- Desk size and use
- Workstation environment
- Posture
- Lighting
- Ventilation
- Noise

Employers are required by law to carry out risk assessments of display screens and workstations. This online risk assessment enables the rapid identification of risks and provides managers with accurate and succinct data on which to base corrective action.

HSRA2: Slips, Trips and Falls Risk Assessment

- Floor surfaces
- Steps and stairs
- Obstructions
- Lighting
- Walkways

Over a third of all major workplace injuries each year are caused by a slip or trip at work. This risk assessment enables managers to put in place appropriate arrangements to eliminate or minimise the risks associated with these hazards.
